NAME AND LOCATION	DATE SURFACED BY/TO S&A DIVISION	DATE OF INVESTIGATION	DATE OSC VISIT	OSC	PRIORITY (H/M/L)	FINDINGS & COMMENTS
Conrail Train Yard Fairmont, IL	6-17-80	7-9-80		Coast Guard		The Coast Guard visited the site and found an estimated 500 gallons of oil had been spilled on soil and partially into a nearby creek. CG to monitor Conrail cleanup. No drums or chemicals were found.
* Lutter Dump Glenview, IL	6-17-80	7-11-80	7-11-80	Rutter		Site presently accepts demolition debris and "fill" only; was municipal refuse dump in past. No obvious runoff or leachate detected. Subject to further investigation.
Roadway Express Company Rock Island, IL	6-17-80			Rutter		State of Illinois has investigated; no contaminants found.
Custom Can Deland, IL	5-6-80	6-12-80 (phone)		Castle		Mr. Bill Child of IEPA advised that most of the cans on site have corroded and are empty. These are being taken to a metal recycling center. Those intact are removed to a State approved landfill. A silty layer of soil about 2 feet deep was unexpectedly found. This may protect ground water quality. State will continue to monitor.
* Envirotherm of Illinois	5-6-80		6-25-80	Madany		311 action pending results of sample analysis.

Area adjacent to Ken Industries Hammond, IN	6-30-80	7-11-80	7-11-80	Castle		Drums sampled on 7-11-80 by NEIC. 311 action pending results of sample analysis.
Calumet Container Hammond, IN		6-12-80 (phone)		Castle		OSC Castle has revisited this site and found no evidence of runoff or leachate entering surface water. Both Indiana and Illinois have undertaken enforcement actions to clean up facility and protect ground water. We will monitor progress.
Griffith Landfill Griffith, IN		6-13-80	7-17-80	Castle		May be a discharge of runoff or from point source. Owners have apparently put forward a schedule for a solution by "end of summer". OSC will investigate and attempt to expedite.
Ken Industries Hammond, IN		6-13-80	6-17-80	Castle		Not 311 actionable.
Stauffer Chemical Hammond, IN		6-13-80	7-17-80	Castle		No apparent route for runoff or discharge to reach surface waters. OSC will investigate and sample if necessary.
Berlin and Farro Flint, MI		6-17-80	6-17-80	Powers		Responsible party cleaning up through State enforcement action. OSC to monitor.
